

With **MORE THAN 18 MILLION MOBILE PHONE USERS** in Canada alone, business hours are becoming a thing of the past.

As smart phone adoption rates continue to increase, customers are increasingly relying on mobile websites to find the best solutions for their needs. Businesses that can meet this need and reach their customers on the go will gain a competitive advantage.

While your current website might offer a wealth of information to prospective consumers, it's critical that you not only deliver this content attractively, but enable users to access it through mobile devices like smart phones and tablets.
